a) Update following the Coronavirus

The pre-OAP is cancelled

OAP will be organized online with zoom, Framapads, live tweets, streamlined keynotes and a bot.

A meeting point with a projection room will be organized at Berkeley (ISCI) for People on site. Depending on the Coronavirus situation, this meeting point (following social distancing rules) is likely to be cancelled.

b) About the posters' sessions

Poster session will include 11 posters presented by 27 authors. Each presentation will last 15 minutes. Posters will be exhibited in the room. There will be no direct time for questions, which will be possible after the round of presentations, and directly through conversations with the authors.

Proposals selected for this session have been divided into two tracks: a phenomenological and a pragmatist track. Each presentation has been asked to focus on a specific author and specific concept likely to make sense of responsibility in a digital age.

Each session will be streamlined. Posters and abstracts will be shared in the forthcoming proceedings of OAP 2020.
